PROFESSIONAL SUMMARY

B.Tech Information Technology graduate with hands-on experience in problem identification, product prototyping, experimentation and cross-functional execution. Led a 4-person team building an AI financial platform and independently built a document-intelligence product, combining user-focused thinking with technical execution and data-driven decision-making.

PRODUCT & ANALYTICAL SKILLS

Product: Problem Identification, Product Prototyping, User-Centered Design, Feature Prioritization, UI/UX

Analytics: SQL, Microsoft Excel, Power BI, KPI Analysis, A/B Testing, Data Analysis, Business Analysis

Technical: Python, FastAPI, Next.js, JavaScript, Scikit-Learn, Machine Learning

SELECTED PRODUCTS & PROJECTS

Gnosis AI — AI Financial Intelligence System

Jan 2026 – Apr 2026

Team Lead, 4-person team

Academic Major Project

- Led a 4-person team building an AI financial intelligence platform. Independently created the initial prototype, defining core workflows, feature placement and user-facing experience before refining it with the team.
- Designed and developed the frontend/UI, translating user needs into product workflows and coordinating implementation across the technical team.
- Iterated on BUY/SELL/HOLD recommendations, portfolio insights and interactive visualisations while reporting progress and technical decisions to the project supervisor.

DocuMind AI — Document Intelligence Platform

Feb 2026

Designed & Built Independently

Solo Project

- Identified a gap while conducting research: extracting reliable, source-grounded information from long reports and documents was slow and inefficient.
- Independently designed and built DocuMind AI to make document analysis faster and more accessible, defining the product workflow from document ingestion and semantic search to AI-powered question answering.
- Built the full architecture across document processing, vector retrieval, API services and interface using LangChain, Hugging Face embeddings, ChromaDB, FastAPI, Next.js and Docker.

PROFESSIONAL EXPERIENCE

Top Talent Bridge LLP

Feb 2026 – Apr 2026

Intern

Gurugram, India

- Analysed business and operational data for an edtech startup using SQL and analytical tools, identifying trends and preparing insights that supported management decision-making.
- Presented findings in a structured format for international clients.

GAINT Logistic Private Limited

Jul 2025 – Sep 2025

Intern

- Organised KPIs, evaluated lead and conversion data and built dashboards to track business performance and support operational decisions.

LEADERSHIP, COMMUNITY & RESEARCH

- **Management Lead, Google Developer Student Clubs (GDSC), GBU** (Jul 2024 – Jul 2025): A/B-tested campaign messaging across a **500+ student** technology community, increasing **event registrations by 25%**.
- **Founder & Community Manager, GBU Community Page** (Aug 2022 – May 2026): built a university community from zero to **2,500+ followers** and **500K+ organic reach**.
- **Lead Author, published machine learning research** (Aug 2025 – Mar 2026): framed and ran a **110-participant** study comparing supervised models. Presented at AIS2C2 2025, published in JICS, May 2026.

EDUCATION

Gautam Buddha University — Bachelor of Technology (B.Tech), Information Technology

Sep 2022 – May 2026 | Greater Noida, India

CERTIFICATIONS

McKinsey Forward Program (2025) | Data GenAI powered Data Analysis — Tata Group

Deloitte Data Analytics Job Simulation | Office Master Power BI Certificate
