PROFESSIONAL SUMMARY

B.Tech Information Technology graduate with hands-on experience in product strategy, prototyping, data analytics, and cross-functional leadership. Proven track record of building AI-driven products, conducting A/B testing, and optimizing business operations using SQL, Python, and BI dashboards. Technical lead adept at translating user needs into scalable product workflows to drive engagement and operational efficiency.

PRODUCT & TECHNICAL SKILLS

- **Product Management & Design:** Problem Identification, Product Prototyping, User-Centered Design, Feature Prioritization, Wireframing, UI/UX, Product Roadmapping
- **Data & Analytics:** SQL, Microsoft Excel, Power BI, KPI Analysis, A/B Testing, Data Analysis, Business Intelligence, Data Visualization
- **Technical Stack:** Python, FastAPI, Next.js, JavaScript, Scikit-Learn, Machine Learning, LangChain, ChromaDB, Docker, Vector Embeddings

PROFESSIONAL EXPERIENCE

Top Talent Bridge LLP
Data & Business Analyst Intern

Gurugram, India
Feb 2026 – Apr 2026

- Analyzed operational datasets using SQL and advanced analytics tools, delivering actionable insights that improved executive decision-making speed by 20%.
- Structured complex data analysis models to track key operational metrics across multiple departments for international clients.

GAINT Logistic Private Limited
Product & Analytics Intern

Noida, India
Jul 2025 – Sep 2025

- Designed and deployed Power BI dashboards to track business performance and organize enterprise KPIs, streamlining lead conversion tracking.
- Evaluated conversion funnel data to pinpoint drop-off points, assisting cross-functional teams in operational optimizations.

SELECTED PRODUCTS & PROJECTS

Gnosis AI – AI Financial Intelligence System
Team Lead (4-person team) — Academic Major Project

Jan 2026 – Apr 2026

- Led end-to-end development of an AI financial intelligence platform, building initial prototypes to define core user workflows and UI layout.
- Designed full-stack frontend architecture using Next.js and FastAPI, coordinating task allocation across 4 developers to meet milestone goals.
- Implemented interactive data visualizations for automated portfolio recommendations, reducing analysis time for users.

DocuMind AI – Document Intelligence Platform
Solo Developer & Designer

Feb 2026

- Conceived and built an end-to-end semantic document query platform to eliminate manual report synthesis and boost retrieval speed.
- Engineered document processing pipeline using LangChain, ChromaDB, Hugging Face embeddings, and FastAPI microservices in a containerized Docker setup.

LEADERSHIP & RESEARCH

- **Management Lead, GDSC GBU:** A/B-tested campaign messaging across 500+ student network, driving a 25% increase in event registration conversion.
- **Founder & Community Manager, GBU Community Page:** Built community platform from 0 to 2,500+ followers and generated over 500K organic reach.
- **Lead Author, Published ML Research:** Designed a 110-participant study comparing supervised machine learning models; presented at AIS2C2 2025 and published in JICS (May 2026).

EDUCATION & CERTIFICATIONS

Gautam Buddha University
Bachelor of Technology (B.Tech) in Information Technology

Greater Noida, India
Sep 2022 – May 2026

Certifications: McKinsey Forward Program (2025) | Tata GenAI-Powered Data Analysis | Deloitte Data Analytics Simulation | Office Master Power BI
